Russian (Native)
English (B1)

About

Motion Designer creating ad creatives, animated banners and packshots. Also building personal 3D, 2D and AI-driven projects. Clarifying vague briefs to find the real task and building complete work from minimal input. Open to remote positions and relocation.

Skills

Visual Storytelling

- Storytelling through the video frame
- Recreating atmosphere based on reference
- Building the video sequence based on music

3D Graphics (Blender)

- Scene optimization
- Procedural modeling and materials
- Maintaining a shared FBX asset library
- 3D Animation

Video Production

- Compositing
- Visual effects
- Sound design and music editing
- Color correction and color grading

2D Graphics

- Raster and vector image processing
- Motion design
- 2D Animation

Generative AI

- Image, video and audio generation (Higgsfield, ComfyUI)
- Understanding the logic of how AI models work
- Knowing when AI is worth using
- Choosing the right AI tool for the task
- Automating workflows with AI
